Energy Efficiency Checklists for Part 3 Buildings and Part 9 Non-Residential Buildings

[Email this page](#)

Checklists were created by the Ministry of Municipal Affairs, to help building designers and building officials meet the energy efficiency requirements of the Building Code for Part 3 Buildings and Part 9 Non-Residential Buildings.

However, these checklists do not reflect the changes to the Building Code that came into **effect on January 1, 2017** and have therefore been removed from the OBOA-TACBOC-LMCBO site.

The ministry is taking steps to update the checklists to support compliance with new Building Code energy efficiency requirements that came into effect on January 1, 2017, for Division B Part 3 buildings and Part 9 non-residential buildings. Updates to the checklists are currently under development and once finalized, users can access them from the **OBOA-TACBOC-LMCBO** web page.
